

# **The Hearthstone Guarantee**

**\*\*\*\*\***

**If you purchase a home from us and take delivery and erection as agreed, and you are then dissatisfied with the quality of our product and services, we will dismantle the structure we originally erected, and refund the money you gave us. We also guarantee the structural integrity of our homes. Our timbers are individually stress-graded to the standards of an independent agency and our building systems are in structural compliance with a major code agency guideline. For complete guarantee details, please contact a Hearthstone representative.**
